CORE SKILLS

- Embedded Systems(Arduino,ESP32,ESP8266)
- Internet of Things (IoT)
- Python
- C Programming(basic)
- Java
- HTML, CSS, JavaScript
- Git & GitHub

STRENGTHS

- Problem Solving
- Loyalty
- Sincerity
- Adaptability
- Continuous Learning
- Team Collaboration

LANGUAGES

- Tamil
- English

ABOUT ME

I am a Final Year Electronics and Communication Engineering student passionate about Embedded Systems, IoT, and Web Development. I enjoy transforming innovative ideas into practical solutions and continuously expanding my knowledge through projects, internships, and hands-on learning experiences.

EDUCATION

B.E. Electronics and Communication Engineering

Loyola ICAM College of Engineering and Technology |
CGPA: 8.31

EXPERIENCE & TRAINING

- Tech Power Internship — Embedded Systems Intern
- CED AU Internship — Industrial IoT Intern
- FITA Academy — Full Stack Development (Ongoing)
- NPTEL — Data Analytics with Python
- Infosys — Prompt Engineering for Developers

FEATURED PROJECTS

SafeLock Security System

Smart embedded security solution for enhanced safety.

Water Tank Alert System

IoT-based water monitoring and overflow prevention system.

Smart Dustbin

Sensor-based automated waste management system.

Clinic Assistant Voice Note Website

Voice-assisted healthcare note management platform.

E-Commerce Website

Responsive front-end shopping platform.

Student Management System

Web-based student information management application.

ACHIEVEMENTS

- RoboCraze Finalist
- Mechkathon Final Round
- Tata Elxsi Participant

CAREER OBJECTIVE

To build innovative solutions that bridge hardware and software by leveraging Embedded Systems, IoT, and Full Stack Development while continuously learning and contributing to impactful technological advancements.
